

# FOHEC 2009

## Agenda

**Thursday, 7<sup>th</sup> May 2009**

09.30 – 10.00	<b>Arrival and refreshments</b>		
10.00 – 10.20	<b>Welcoming address</b>	Andrew Lee	AVoptics Ltd
10.20 – 10.40	<b>Avionics fibre optic technologies – past, present and future directions</b>	Mark Beranek	US Naval Air Systems Command
10.40 – 11.00	<b>Opportunities for fibre optics on new commercial aircraft</b>	Luke Bolton	GE Aviation
11.00 – 11.20	<b>Plastic Optical Fibres (POF) and their application in Harsh Environments</b>	Alessandro Nocivelli	Luceat S.p.A.
11.20 – 11.40	<b>Coffee break</b>		
11.40 – 12.00	<b>Fibre optic design tools</b>	Mike Tyrer	Trace Technologies Ltd
12.00 – 12.20	<b>Fibre optic sensor system for gas turbine instrumentation and avionics</b>	Stephen Fasham	Oxsensis Ltd
12.20 – 12.40	<b>In-field repair: A viable alternative to replacement</b>	Andy Voizey	AVoptics Ltd
12.40 – 15.00	<b>Lunch Break</b>		
15.00 – 15.20	<b>Repeatable and reliable testing</b>	David Robinson	Arden Photonics Ltd
15.20 – 15.40	<b>Generic standards and training requirements for harsh environments</b>	John Colton	Lucid Training
15.40 – 16.00	<b>De-risking future avionic optical physical layer using OSCAR</b>	Geoff Proudley	BAE Systems
16.00 – 16.15	<b>Closing Address</b>		

*Note: Table-tops and museum exhibits available during all breaks.*
