PRESS RELEASE - 28th April 2011

AVoptics Ltd achieves aerospace quality standards:

AS9100 Revision C & BS EN ISO 9001:2008 Certificate No: 27224

AVoptics Ltd is pleased to announce that following a successful audit, we are now approved to AS9100 Revision C and BS EN ISO 9001:2008. Commenting on this success Andy Voizey, Managing Director said...

"I am extremely proud that the company has achieved BS EN 9001 and AS9100 certification. We are extremely grateful to our workforce for their on-going commitment in helping us achieve this objective. We put a huge amount of effort into strengthening our systems and procedures in order to provide our customers with the very best service possible. This certification proves the quality of our systems and further strengthens our position as a key supplier into the aerospace and defence market."
